Ms. Benson stated that if this program is implemented, ECUA have oversight over any instance in which the ECUA name is used.

Dr. Walker proposed that language be added to retain the current policy regarding water and sewer line repairs.

Mr. Common proposed that the policy be changed to where ECUA maintains both water and sewer lines at the same geographic point at the property line. Mr. Sorrell explained the expense associated with such a policy and complaints that would be received from the private plumbers.

ITEM L - UNFINISHED BUSINESS

- (1) **Update on solid waste services in Santa Rosa County**
(McCorvey)

Mr. Sorrell provided a verbal update, stating that ECUA is virtually caught up. Further, there were issues with the contractor hired to deliver cans and that contractor has since been released. There were also some problems with cans disappearing after they were delivered. Overall, the complaints are diminishing rapidly and ECUA has signed up approximately 19,000 customers.

ITEM M - NEW BUSINESS

- (1) **West Nine Mile Road (Walker)**

Dr. Walker commented that the State is planning to four-lane West Nine Mile Road and he would like for ECUA to begin making preparations to install sewer lines at the time that the State is requiring ECUA to relocate its water lines. Dr. Walker stated the widening work to four-lanes is due to begin in two years.

Mr. Sorrell responded that staff is already in the process of evaluating the area for sewer line installations.

Mr. Perkins suggested that perhaps, with the State's revenue picture improving, ECUA should approach the State requesting the establishment of a matching funds program for utility relocations.

Dr. Walker commented that when the State begins to get more revenue and begins working on more roads, ECUA will be hit hard for utility relocations.

- (2) Ms. Benson invited everyone to attend the opera performance 'La Bohème' this weekend.
