

EMERALD COAST UTILITIES AUTHORITY
BID 2016 04
AIR RELEASE VALVE DEMOLITION AND REPLACEMENT
November 6, 2015

ADDENDUM NUMBER 2

Prospective Bidders:

This addendum is issued to clarify a misprint and more recent questions received regarding the air release valve bid.

1. An error was made on the proposal page attachment to addendum number one. It has been corrected and is included as an attachment to addendum number two.
2. A suggestion was made to add a unit of measure to the Roadway Work/Asphalt Replacement section of the proposal page.

Response: After discussion with Mr. Resmondo, the change has been made.

3. There was a question received regarding the extent of concrete work involved, does it include replacing driveways, curbs, etc., or grout filling the manholes. Clarification was requested.

Response: Replacement of concrete pertains to an ARV within a driveway, curb line or sidewalk. The area shall be restored back to the condition in which it was originally found.

4. Is a list, or map, available of the initial air release valves to be replaced?

Response: Please see the attached.

Regards,

Amy Williamson, CPPB, FCCM
Senior Purchasing Agent
